CCS
CABLE CHANNEL SHOP
FEATURES:

- Flat 90 degree bend have two width dimensions and are produced equally.

- There are holes in the flat 90 degree bend base.
  The cable tray is fixed with M8x15 bolts and nuts to coincide with these holes.

- Width dimensions can be produced differently.

- *Example:* In special productions, the dimensions must be clearly specified.
  It can be produced as X:150mm, Y:75mm, the size expression should be
  150/75 when defining the product.
  These products cannot be changed and returned as they will remain fixed after production.
  In special productions, the code is specified according to the larger size.

- It can be produced in required thickness from 0.80mm to 2.00mm.
